GLIDEROL

For almost 4 decades GLIDEROL have been sourcing and manufacturing quality and reliable garage doors from Peterlee in the North East of England.

GliderMotionX BY GLIDEROL

Our made-to-measure high quality GliderMotionX sectional doors offer thick 40mm CFC-free foam core insulated panels alongside frost-resistant seals, retaining heat equivalent to having a 55cm brick wall.

Durable anti-fade German painted panels with soft rubber gaskets on all four edges ensure a draught free and protected garage, even in the harshest of British weather.

Precisely engineered door with strong tracks and lightweight highly insulated Italian designed panels. The closed type rollers ensure a smooth and quiet operation when opening and closing the garage door.

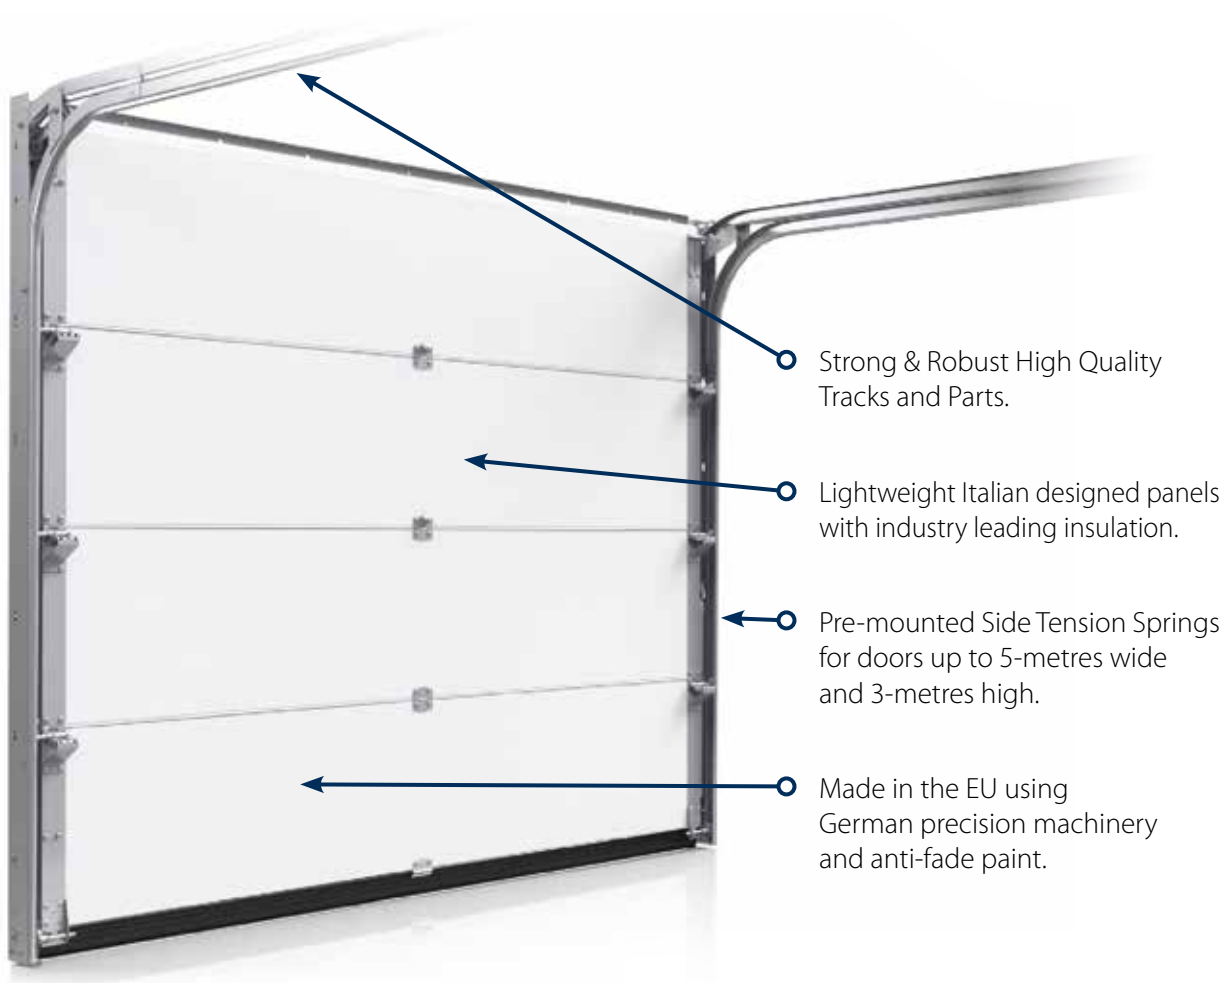

This market leading top quality sectional door comes with a 10-year guarantee – see website for details.

- Manufactured since 2005, produced using German precision machinery.
- High quality designer Italian insulated panels conforming to UNI EN 10326.
- Best standard German industrial bi-component polyurethane anti-fade paint.
- Industry leading thermal conductivity with a panel U-value of 0.58 W/m²K.
- Side tension springs as standard up to 5m wide and 3m high.
- Springs are pre-mounted at the factory for easier and faster installation.
- Market leading slimline frame, ideal for in-between fit or when space is limited.
- Available with 4 panels up to 2450mm high for better aesthetics.
- Adjustable upper wheels bracket, allowing for easy fine tuning.
- Only 125mm headroom required with operator and 90mm side room.
- Strongly packaged with lightweight recyclable material to minimise waste.

GliderMotionX
